PROFILE

Full Stack Web Developer specializing in building scalable, high-performance, and user-centric web applications. Proficient in modern frontend and backend technologies, including React.js, Next.js, TypeScript, Node.js, and Laravel. Experienced in developing responsive user interfaces, designing and integrating RESTful and GraphQL APIs, implementing secure authentication and authorization systems, and managing relational and NoSQL databases. Committed to writing clean, maintainable, and efficient code while following industry best practices. Passionate about delivering innovative, reliable, and impactful software solutions that enhance user experience and drive business success.

WORK EXPERIENCE

2025 - PRESENT

MarsCoders Team

Frontend Web Developer

- Developed responsive and user-friendly web applications using React.js, Next.js, TypeScript, Tailwind CSS, and JavaScript.
- Built reusable and maintainable UI components, improving development efficiency and consistency across projects.
- Integrated RESTful and GraphQL APIs to deliver dynamic, data-driven user experiences.
- Optimized application performance through code splitting, lazy loading, and efficient state management.

2026 - Present

MarsCoders Team

Backend Web Developer

- Developed and maintained scalable backend applications using Node.js, Express.js, and NestJS.
- Built and optimized database models and queries using MySQL and MongoDB, ensuring high performance and data integrity.
- Integrated third-party services, including payment gateways, cloud APIs, and external business services.
- Collaborated with frontend developers to deliver robust APIs, performed debugging, code reviews, testing, and maintained clean, scalable backend architecture following software engineering best practices.

EDUCATION

2010 - 2022

JEBRAYEEL HI-SCHOOL

- HI School Diploma

2024 - Present

HERAT UNIVERSITY

- Software Engineering
